

Beside the seaside, beside the sea

Following the success of last year's introductory programme our holidays activity is once again offered for younger pupils but as a broader topic to include how Bewdley was often used as a 'day trip' experience by the industrialised Midlands.

Through interactive pupil involvement and the use of supporting photographs and replica and original artefacts, children will be able to learn all about the various ways that their parents and grandparents enjoyed their special leisure times and had.....best holidays, favourite places and precious souvenirs.

PLUS ! the chance to learn and have fun with

hands-on replica seaside costume dressing up and 'a face in the frame' photo opportunity for every child using our jolly seaside backdrop

a reminiscence experience of past holiday memories with a museum volunteer

writing a postcard to remember your visit

CROSS CURRICULAR LINKS:
